Subject: MLPAComments: MPLA Initiative

To Whom It May Concern,

I am a resident of Cambria in San Luis Obispo County. I have been following the Marine Life Protection Act Initiative process for quite a while. I feel it is important that Package #2 be the option chosen to protect the ocean waters off our coast. This package was thoughtfully put together by people with no agenda but to protect the ocean and fisheries of the Central Coast. Even with this option, approximately 75% of ocean waters are open and free from restriction. But important areas that form a net of protection will be safeguarded in order to provide the generations that follow us with rich, diverse, and vital ocean waters.

If the goal of this process is to provide for the protection of marine life off the Central Coast and beyond, it is essential that Package #2 be chosen.
